FD 430 Envelope Sealer

ONE-PASS MAIL PROCESSING

Sealing Envelopes Just Got a Whole Lot Easier

The Formax FD 430 Envelope Sealer closes and seals envelopes in a single pass. Simply place a stack of envelopes in the infeed tray, choose a processing speed with the adjustable control knob and in seconds, envelopes are sealed and ready for the mail.

Users can seal envelopes up to 9.75” wide x 15” long, up to 16 mm thick, at speeds of up to 18,000 envelopes per hour. Standard features include an adjustable envelope separator to ensure accurate feeding, a large outfeed tray, heavy-duty metal construction and a precision moistening roller. The flap closing bar allows users to load envelopes in a standard stack or nested with flaps open for even greater efficiency.

Forget the days of hand-sealing envelopes, and let the Formax FD 430 seal your mail in the blink of an eye.

Closes and seals envelopes in a single pass

Pressure Seal Solutions • Mailing Solutions • Data Destruction Solutions • Digital Print & Finishing Solutions

Key Features

User-Friendly: Simply load envelopes, choose the speed and go

Variable Speed: Jobs are processed quickly at speeds of up to 18,000 pieces per hour

Variable Sizes: Handles envelopes up to 9.75” wide, up to 15” long, up to 16mm thick

Precision Moistening Roller: Rubber roller is designed to efficiently transfer water to the envelope flap

Flap Closing Bar: Allows users to load envelopes in a standard stack or nested with flaps open

Adjustable Envelope Separator: Ensures envelopes are fed one at a time for accurate sealing

Large Outfeed Tray: Accommodates a wide variety of envelope sizes, keeping them neatly stacked after sealing

Rugged Construction: Heavy-duty steel body for durability

Options: FD 430-10 Extended Sealing Kit for flaps up to 4” long, FD 430-20 Square Flap Moistening Basin and Roller

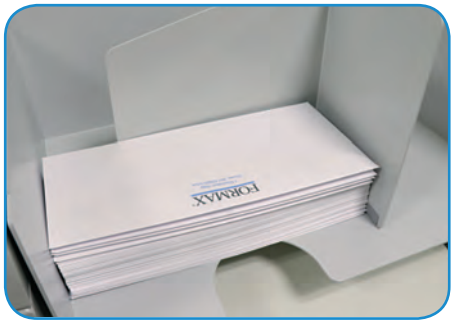

Envelope separator ensures single feeding

Variable speed control knob

Precision moistening roller and flap closing bar accurately seal stacked or nested envelopes in a single pass

Adjustable outfeed tray accommodates a wide variety of envelope sizes, keeping them neatly stacked after sealing

Specifications

Speed:	Up to 18,000 envelopes per hour
Infeed Capacity:	Up to 4.5” stack height*
Outfeed Capacity:	Up to 4.5” stack height*
Media Size:	Up to 9.75” Wide Up to 15” Long
Envelope Flap Length:	Standard: up to 2.75” Extended: up to 4” (w/optional kit)
Package Thickness:	Up to 16mm
Dimensions (including outfeed tray):	43” L x 15” H x 15” D
Weight:	55 lbs (25.6kg)
Power:	110V, 60 Hz
Safety Certifications:	CE

* Variable, depending on thickness of envelope & contents
