BOOKLEMAKER FEATURES

- patented, ISP wire-fed stitching system provides lower operating costs than bookletmakers using preformed staples
- low maintenance—jogs, stitches, and folds up to 65,000 booklets without replacing wire spools
- runs on-line with variety of collators (interface is included)
- easy-to-use, push-button controls with 6 digit counter
- knife fold with dual fold rollers for crisp, consistent folds
- moveable stitching heads
- powered exit conveyor
- transparent safety access covers—machine will not operate with covers in open position
- comes with jam detector, back jog, and stand with casters
- options include an activated clinch and an in-line corner/side stitch gate

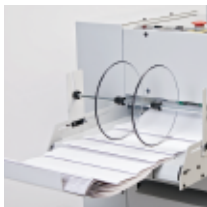

TRIMMER FEATURES

- face trimmer operates in-line with StitchFold bookletmaker
- trims booklets up to 50 pages*
- powered exit conveyor
- transparent safety access cover—machine will not operate with cover in open position

*may vary due to variations in paper and power supply

Magnetic stitching heads feature "one-step" threading for quick and easy set-up.

Powered exit conveyor on bookletmaker or trimmer stacks booklets neatly.
