

# Alpha-Doc® MK4 Automatic Punch

The new Alpha-Doc® MK4 will give you the extra mile you need to enhance your productivity. This remarkably user-friendly high productivity machine offers a top speed of 90 cycles per minute. It can produce outputs of up to 65 reams of paper per hour of 20 lb. bond paper. This allows time for loading & unloading operations.

The remarkable Alpha-Doc® combines the versatility and ease of an office machine with the speed and efficiency of an automatic punch for perfect holes every time. Simply load the tray, push a button and walk away for hands-free punching of pre-collated books, presentations, proposals, reports, and even tabbed sheets.

With a wide assortment of die patterns available, and super fast changeover times, the Alpha-Doc® will “punch-up” your document binding productivity without “punching holes” in your document finishing budget.

## FEATURES:

- **High productivity** - With its new top speed of 90 cycles / minute and the large capacity of the high pile feeder and reception trays (6 reams of paper), the Alpha-Doc® MK4 can punch up to 65 reams of paper per hour without the permanent presence of the operator is required.
- **Versatile** - Punches wide variety of paper stocks and covers, even tabbed sheets, in virtually any size from 5.4" x 5.4" up to 14" x 13".
- **Easy to Use** - Just load the tray and push a button, no special training is required.
- **Simple Formatting** - Just follow the instructions on the conversational touch key screen and pre-set standard allow paper sizes changeover in 2 minutes.
- **Wide choice of punching dies** - Lhermite® original hardened steel dies provide long life time. They can be changed in less than 5 minutes. The wide choice of punching dies covers all perforation styles.
- **Installation** - Caster wheels allow quick and easy machine placement.
- **Retractable Pins** - Eliminates “nicking” at edge of sheets, producing clean, perfect holes for binding
- **Tools Available** - Wide choice of round and square hole punching dies including: Wire-O® wire, Plastic Coil, Plastic Comb, and VeloBind®.
- **Air-Blow Option** - Optional air valve attachment helps separate sheets with static buildup. Air not supplied.
- **Voltage Requirements** - Quiet 110v single phase 60 Hz. No air required.

# Alpha-Doc<sup>®</sup> MK4 Automatic Punch

The Alpha-Doc<sup>®</sup> MK4 offers a dynamic size change feature that is controlled by a conversational touch key screen and ensures precision punching of a wide variety of documents now including thumb-cut dies for wall calendars. The large capacity of the high pile feeder and reception provides maximum productivity.

The Alpha-Doc<sup>®</sup> provides large volume hands-free punching of preprinted, collated documents directly from your copier or printer including mixed stocks from 16 lb. bond to 110 lb. index. It also punches tabs pre-collated into the finished sets. Tabs must have minimum 1/4" shoulder. Hands free operation means your operator is free to perform other tasks.

The Alpha-Doc<sup>®</sup> punches a wide variety of material in virtually any size from 5.4" x 5.4" up to 14" x 13". Our simplified paper path and unique turnover device with a receding stacker provide low waste and assures that pages are kept in perfect pre-collated order.
