Start Laminating a Whole *NEW* Way!

With one button start, documents can now be **auto-fed**, **laminated** and **cut** with ease.

Compact size and design fits perfectly into any office setting.

With its compact design, the Revo-Office allows you to laminate on demand unattended.

Film change is easy - just lift out the two roll cassette.

The industry's first film cassette is easy to change. Now anyone can change the film roll easily and quickly.

Easy to operate digital panel.

Set *start* and *stop* and number of *sheets* easily and quickly on the operation panel.

Increase your lamination productivity with one touch of the start button and do it all with the Revo-Office automatic laminator. With a compact design and simple operation, the Revo-Office runs unattended - perfect for the office or copy shop.

Join the **Revo Revolution** and see for yourself!

Just push one button and that's it.
The Revo-Office runs automatically and unattended. Simply set the number of sheets and push start.

Open the top for easy maintenance and cleaning.
Clean rollers and machine parts easily with access from the top.

Equipped with internal cutter.
Set various front and rear margin sizes to be cut automatically.

Weight	66 lbs.
Warm-up time	5 min.
Laminating Speed	240 sheets/hour

Pouch Lamination vs. Automatic Lamination

With a pouch laminator, you need to stand by the machine and feed each pouch individually.

With the Revo-Office laminator, stack the paper in the feed, and just push start for automatic lamination.
