Cutters

DF0604-MT
DF0906-MT
DF1007-MT

The Graphic Whizard digital flatbed cutter line is the only one in the market of automatic plotters with Interchangeable Tools for specific and professional processes to handle not only prototyping, but also for small production. Capable of handling plasticized prints (up to 10mm with the oscillating tool) sheets are automatically managed allowing for unparalleled operator freedom. Feed, cut, crease, perf, and more on materials such as; paper, cardboard, corrugated, light PVC, FOAM, KT Carton, coupled, special foil, polypropylene sheets, vinyl, ABS, magnetic adhesives. Interchangeable tools allow for cutting, kiss-cutting, creasing and perforation.

Applications:

Short run die-cutting

Textiles

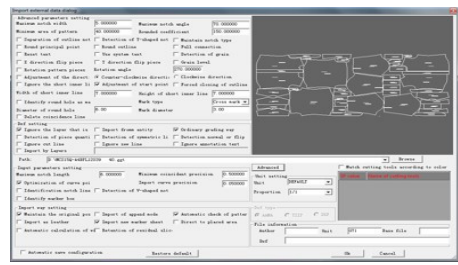

Labels and Vinyl

Corrugates and POP display

Packaging

The CONTROL CENTER Software will directly drive the Cutter for the job you want to perform, and if you have already created it, the setup will take place by automatically reading the supplied barcode. Accuracy is ensured by the mark reader that controls the head to achieve perfection every time.

Modular Design:

Simply load the 7" high capacity suction pile feeder or take a look at one of our many options for the MT line. Optional roll feeder, high capacity inline roll feeder, and rewinders are available for roll to roll customers. The MT series digital die cutters comes with a roll away output tray and adjustable guides to make feeding and collecting finished products a breeze.

SOFTWARE

The supplied Sinajet program includes numerous operation modes and data interchange with the work table and the CCD camera. This enabled a seamless one step process for projects read in barcode and allows for perfect registration with the built in mark reader.

Dual RCT : Rotary Cutting Tools cuts up to 1.8mm

RST: Rotary Score/Perf Tool

ACT : Active Circular Tool cuts up to 1.8mm

ECT: Electronic Cutting Tool cuts up to 6mm

EOT: Electronic Oscillating Tool Up to 10mm
