# BEST. EVER.

## The Most Versatile ECO-UV Printer

*The X-55 is designed for high-volume production. Whether it's long-life outdoor signage or indoor photo-realistic UV prints, the X-55 can do it all. The 55"x50" full bleed bed is large enough to handle big jobs and small enough for your shop.*

*Large flatbed printers print at high speeds, but are limited by substrate thickness. Small format printers print specialty items at slower speeds and are limited by substrate length and width.*

**The Xanté family of X-UV Printers do BOTH.**  
*It's the best of both worlds.*

**Signage ■ Manufacturing ■ Specialty Items ■ Industrial**

## Optional Roll-fed Attachment and Cutter

The 48-in. roll-fed attachment and multi-use cutter for X-55 and X-98 UV flatbed printers adds greater capability and flexibility to your UV flatbed. Take advantage of the flatbed design to cut a variety of media, including vinyl, acrylic, paper, and more.

Increase your ROI, become more efficient and serve creative new market trends.
